Notes:

Rates for marriages and divorces are per 1,000 population.

Population projections/estimates are revised as historical data becomes available and the rates may not agree with previous reports and vital records data may be updated each year and may not agree with prior reports in this series.

The annual totals of Utah marriages for 1940, 1950, 1965, and 1978-1981 were the number reported; other years represent the number of transcripts received. The annual totals of divorces for 1940, 1950, 1960, 1965, 1970-1972, 1974-1976, and 1978-1981 were the number reported.

Utah Population Estimates Committee in 1996 changed its convention on rounded estimates so that it now publishes unrounded estimates. Accordingly, the revised estimates for 1990 and thereafter are not rounded.

Notes:

All marriages with order not stated are omitted.

Data for 2002-2005 is the first Utah data published in the American Community Survey which replaces the long form in future censuses and is a critical element in the Census Bureau's reengineered 2010 plan. Population by marital status by gender for 18 years old and above is no longer available in the Census Bureau's Current Population Survey.

Population and vital records data may be updated in summary tables each year and may not agree with prior reports in this series.

Rates are per 1,000 population.

All marriages with order not stated are omitted.

Data for 2002-2005 is the first Utah data published in the American Community Survey which replaces the long form in future censuses and is a critical element in the Census Bureau's reengineered 2010 plan. Population by marital status by gender for 18 years old and above is no longer available in the Census Bureau's Current Population Survey. Rates are per 1,000 population in this series.

2005 Technical Appendix:

Marriages and Divorces

TECHNICAL NOTES

In 1957, the National Center for Health Statistics (NCHS), United States Department of Health and Human Services defined registration areas for the collection of marriage and divorce statistics. These areas were referred to as the Marriage Registration Area (MRA) and the Divorce Registration Area (DRA). Membership was voluntary for all states and the main requirement was central maintenance of marriage and divorce records. The MRA and DRA provided uniformity of data collection to provide detailed data for marriage and divorce studies at the national level.

The State of Utah participated in both the MRA and DRA programs. In 1996 NCHS stopped the collection of detailed data from marriage and divorce records, but continues to collect counts of marriages performed and divorces granted from all vital registration areas of the United States. The Office of Vital Records and Statistics, Utah Department of Health, continues to collect the detailed data and to publish Utah's Vital statistics: Marriages and Divorces series. The following information will help users understand how marriage and divorce data are collected in the State of Utah.

Title 26, Chapter 2, Section 24 of the Utah Code Annotated, 1953 requires marriages occurring in the state to be registered with the state registrar. Divorce or annulment reporting is required under Title 26, Chapter 2, Section 25 of the Utah Code Annotated, 1953. The divorce statute specifies that the decree of divorce become absolute (final) at the expiration of three months from the date the decree is entered, unless an appeal of the court, for good cause, orders a different date, but not more than six months thereafter. In most instances, the divorce certificate is completed at the time the decree is entered and the date the decree becomes final is 90 days later. The record is then transmitted to this office. For some decrees, during the intervening 90 days, an appeal is filed and the final date is delayed or the decree may be set aside and never becomes final. Occasionally this office is notified of these changes. However, it is difficult, particularly at the end of the year, to reflect all of these changes so that there are complete statistical tabulations.

Data for the Reference Tables of this report are tabulated directly from records. The form used for reporting marriages was revised in 1996 and is shown in Figure A. The Certificate of Divorce, Annulment or Dissolution of Marriage, Figure B, was revised in 1995 and is being used in Utah's counties for submitting final divorce and annulment records to the Office of Vital Records and Statistics.
